COMPLETE BATHING SOLUTIONS

Faucets | Showers | Sanitaryware | Wellness Products | Shower Enclosures | Flushing Systems | Water Heaters | Lighting

The Group

International Headquarters

Net Zero Energy Building spread over 48,000 sq. mtrs.

Conceived back in 1960, the Jaquar Group has been built on the platform of the highest quality standards, aesthetics and the intent of providing world-class products. Today, the Jaquar Group caters to luxury, premium and value bathroom segments with Artize, Jaquar & Essco brands, respectively, for residential and commercial sectors across the globe.

Artize

craftsmanship in water

It pays a tribute to the fine traditions of exquisite craftsmanship and precision where design, technology and talent combine to deliver a masterpiece. Artize products are crafted for luxurious bath spaces. Perfect harmony is the very essence of Artize-together as coordinates or even as individual pieces. Artize's exquisite craftsmanship is so stunning that it can inspire the design principles of not just your bath spaces but of your entire living spaces.

experience bathing

A leading global super brand known for its excellence in innovation and technology. The highest build standards combine with the most beautifully designed aesthetics to provide world-class products for tough conditions. With a superb blend of ergonomic shapes, contemporary styles and meticulous finish, Jaquar continues to enthral millions of hearts across the world with its wide range of concepts and products.

For over five decades now, Essco, the bath fittings brand, has been supporting affordable and sustainable housing in India. Essco is a value for money bath brand from the Jaquar Group, which is the leader in Complete Bathing Solutions. Essco, a Pan India brand, added a whole new chapter in the bath fittings industry by ushering in the era of the organised bath market. Essco set out with an obsession for good quality products at affordable pricing, one that was unheard of in the corridors of bath fittings manufacturers then. With its 10 years of warranty and impeccable customer service, Essco is standing tall in the Indian bath fittings Industry since 1960 and touching more hearts every year.

Jaquar Lighting gives you complete lighting solutions - for residential, commercial and outdoor use. Our extensive range lets you choose for varied budgets without compromising on quality and reliability. They are designed to complement and coordinate the most exclusive interior and exterior lifestyles and decors, from classic to contemporary. The house of Jaquar has the legacy of excellence that has been manifested time and again through its brand of bath fittings; Jaquar Lighting is no exception. Every lighting product reflects Jaquar's impeccable record of superlative quality and painstaking attention to detail.

Jaquar. Built on the highest quality standards

Jaquar is known the world over for its excellence in innovation and technology, continuous research and development, and being a leading, trusted bath brand.

Jaquar has been built on the platform of the highest quality standards, aesthetics, and the intent of providing world-class products. A one-stop solution for all bathing needs, Jacquar has high-performing faucets, showers, sanitaryware and wellness products in its coordinated portfolio.

Key Highlights

- World-class brands, products and ranges for residential and commercial purposes
- One of the fastest growing bath brands in the world
- Presence across 30+ countries in Europe, Middle East, Asia-Pacific and Africa 4 state-of-the-art manufacturing facilities spread over 180,000 sq. mts, with the most modern machines and processes
- Delivering over 1.5 million bathrooms every year
- Producing over 24 million bath fittings annually
- Half a million happy new customers joining the Jaquar family every year
- A committed workforce of over 6374 across the globe

Production Process

Be it mould making, casting, grinding, polishing, electroplating, and finally, testing and assembly, Jaquar has the complete manufacturing process under one roof in a fully integrated plant. The factory is also constantly online with the marketing team, and engages in demand forecasting, using market information plus trends to predict demand.

R&D

With a presence across 30 countries, Jaquar is a firm believer in maintaining good quality and fine design. This requires a strong Research and Development (R&D) department. Jaquar has recently introduced an award-winning, cleverly concealed washbasin faucet and a soon-to-be-released state-of-the-art shower mixer that uses a customer's pre-fed data to prepare the temperature of bath water and the type of shower settings requested, beforehand.

Go Green !

As a major global manufacturer of bathing products, we at Jaquar are well aware of our responsibilities. Conservation of precious water as a natural resource has long been the primary goal of our sustainability efforts to help preserve the living planet for our future generations.

Go Green is a philosophy embraced by Jaquar as a tenet of its design and production system to save water.

Technology that **saves** water

Flow Restrictors

This is a revolutionary technology that lets your taps and showers save upto 80% of water without compromising on the flow. Jaquar Flow Restrictors adjust the flow in both low and high pressure conditions and offer the same voluminous flow every time.

Flow rate options available: 1.4, 2.5, 4.0, 6.0, 8.0, 13 LPM

Flow rate options available: 6.0, 8.0 & 12 LPM

Air Showers

Jaquar's Air Showers have a built-in air mixer that mixes air and water in a manner that makes shower drops lighter but voluminous. This revolutionary technology helps Jaquar air showers save up to 30% of water without compromising on the showering experience. Choose from a wide range of Hand and Overhead Jaquar Air showers with single and multi-flow options.

70% Water + 30% Air = 100% Rejuvenation

Pressmatic Faucets

Taps with technology that allows only a fixed quantity (750 ml) of water to flow with every press of its knob. This mechanism not only prevents water wastage during each use, but also provides ease of operation. Jaquar Pressmatic taps are recommended for bathrooms of high traffic locations like restaurants, clubs, hotels, colleges, hospitals, airports etc.

Sensor Faucets

Faucets with technology that allows water to flow only when you need it and shuts it as soon as you move your hands away, resulting in zero wastage of water. There's no better way to save water than when you don't need it e.g., while washing hands with soap, you can save water when lathering. Use Jaquar Sensor taps in high traffic areas like restaurants, clubs, hotels, colleges, hospitals, airports etc.

Three stages of washing hands

Wetting your hands

Making lather with soap

Rinsing your hands

Water consumption chart

	Time consumption in seconds			Water Consumption (A+B+C Stage)	SAVING
	A	B	C		
Single Lever Basin Mixer	5	12	7	4.31 L	BASE*
Sensor Faucet	5	Not in use	7	1.8 L	59%
Pressmatic Faucet	8	Not in use	8	3.01 L	31%

*Base calculation is taken on Florentine basin mixer at 1 bar pressure

Dual Flush

Flushes that use more water than needed are the biggest water wastage culprits in every home. Jaquar's dual flushing systems enable you to use either a combination of 3/6 ltrs of water or 2/4 ltrs of water, depending on your water closet. Jaquar's beta valve is designed to save 50-60% of water every day.

Products that **save** water

Pressmatic Taps
750ml per operation.

Air Showers
Save 30% of water.

Sensor Taps
0.11Ltr. per second.

3/6 Ltrs. flushing systems
Save approx 50% of water.

2/4 Ltrs. flushing systems
Save approx 65% of water.

Sensor urinals
1.5 Ltr. per flush.

Faucets

Jaquar faucets provide a great experience with their high quality and superior performance. Jaquar's in-house, award winning design team is well integrated in its approach and helps to produce 60,000 faucets per day. Our state-of-the-art manufacturing units are backed by a world class testing lab. That's why Jaquar faucets conform to the highest quality

and regulatory standards. Jaquar's passion for perfection reflects in the 10 years of warranty it extends on its faucets. Today, Jaquar faucets have about 60% of the market share. The faucets comprise of 22 ranges to suit various design needs, besides a complete range of faucets with single-lever, quarter turn and multi-turn operation.

Jaquar Care

Faucet Technology

Cartridges

The heart of every faucet, the cartridge is responsible for controlling water supply.

- Jaquar cartridges are 5 lacs cycle tested to give a longer and trouble free operating life of upto 20 years (considering 60-70 operations per day)
- Wide angle of lever provides ultra comfort and flawless, smooth operation
- Our cartridge spindle is made of brass instead of plastic, to avoid breakage
- Works smoothly even at high temperatures (85 degrees) and in various pressure conditions (0.5 -5 bar)
- Recognised and approved by national bodies NSF -USA, ASME-USA ,WRAS-UK,ACS-FRANCE

Aerators

Devices that mix air with water to give a soft and splash-free flow.

- Our integrated honeycomb-structured aerator, provides lime buildup protection
- Integrated anti-clogging dome screen of the aerator filters sediments and dust particles

Chrome Finish

Upper shiny protection layer provides a mirror finish to every faucet.

- High plating thickness (Nickel: 10 microns and Chrome: 0.3 microns) provides tolerance to extreme climate and water conditions
- 450+ hours of salt spray test ensures our finishes are highly durable and corrosion resistant for a much longer duration.

i Flush

The intelligent flushing mechanism
that installs directly in the normal pipeline!

Upgrade to the simpler
smarter flushing mechanism!

i-Flush advantages

- Installs directly in 20 mm (3/4") pipeline
- Installs in a 4" wall - no need to construct a separate ledge wall
- Saves money
- Saves the space needed for a flush tank
- Makes repeated flushing possible, unlike concealed cisterns which take time to fill up after flushing
- No need to wait if waste is not cleared in one flush
- Makes flushing less noisy than cisterns
- In-built control valve
- Easy maintenance - the control stopcock can be shut with the help of a control key provided on the plate. The cartridge can be accessed by simply removing the front actuation plate
- Aesthetic appeal - Slim wall plate imparts a clean look to the bathroom
- Works even at a pressure as low as 1.5 bar

Showers

Jaquar showers are designed to deliver a range of experiences, and let you have a shower of your choice every time. Our overhead, hand and body showers complement a wide range of shower systems, catering to your unique showering habits, design and installation requirements.

Our advanced showers are designed to deliver great precision and consistent water distribution to each individual nozzle. Jaquar showers give you a choice of upto 5 different flows matching your mood. Whichever flow you choose, you will be assured of an ultimate experience every time.

Normal

Soft

Massage

Cascade

Mist

Features

Advanced Rubit Technology

A feature that keeps showers clean and increases their longevity. Since the spray jets on the showers are made from elastic silicon, they ensure that no limescale deposits stick to the shower face. Even if they do, they can be easily rubbed off by hand or flannel.

Click Position System

All Jaquar multi-function showers feature the convenient click mechanism. You can feel and hear the click while changing the function of the shower sprays.

Thermo Insulation

Jaquar's insulated shower systems prevent scalding by not heating up the shower body.

Jaquar Booster Technology

Jaquar Booster Technology creates the sensation of a full shower regardless of the water pressure.

HydroLite

A light emitting shower which transforms the stream of water into a beautiful waterfall of light.

- **Hydro Power:** Powerful electric energy for LED, which is generated by waterpower. Does not require any battery or electrical power supply.
- **LED:** The sensitive shower light changes its colour with change in temperature.
 - Water glows Red when temperature is above 42°C
 - Water glows Purple when temperature is between 32-42°C
 - Water glows Blue when temperature is less than 32°C
- **Rain:** Immersing your body in a heavenly rain, experience nature's downpour.

Exposed Shower Pipes:

Exposed shower pipes offer a wide shower experience without the need for complex concealed installation. They are available in new refreshing designs that can be integrated into any bathroom design—old, new or renovated. Simultaneous working of showers make bathing experience more enjoyable. Allowing for height adjustment, these showers can be positioned to release the spray either directly or diagonally from above. This exposed application makes it easy to upgrade or renovate your bathroom at any time.

NEED UNINTERRUPTED HOT WATER?

Water Heaters

Every bathroom needs a different size of water heater depending on the climate of the place, the kind of fittings used and the number of people who use it. Rain showers, bathtubs and whirlpools need larger water heaters, while kitchens require smaller sized ones.

Jaquar has introduced a full range of modern water heaters ranging from 1 litre for your kitchen, to 425 litres for large homes. Jaquar's range of water heaters have been developed to work in tough Indian conditions, with features that offer more safety, more savings and more life built-in.

Ask your Jaquar bath expert to recommend the right one for your needs.

Features

MORE SAFETY

**Double Safety
Thermostat**

Double Safety Thermostat – dual overheating control mechanism cuts off power automatically even if primary cut off fails

**Multi Function
Safety Valve**

Multi-function Safety Valve – discharges water and acts as a non-return valve if pressure or temperature exceed preset limit

**Earth Leakage
Circuit Breaker**

The ELCB is designed to prevent shock and injury to users. It quickly disconnects a circuit whenever detecting an imbalance of electric current leakage through the body of a person who is grounded and accidentally touching the electriferous part of the circuit.

MORE LIFE

**High Quality
Glass Lined
Heating
Element**

Superior Quality Glass-lined Inner Tank – prevents rust, corrosion and prolongs the life of the inner tank

MORE SAVINGS

**Energy Saving
High Density
PUF Insulation**

High Density Insulation – CFC-free PUF insulation, more thick than normal to minimise heatloss and maximise energy savings

**Cathodic
Protection**

Cathodic Protection – a sacrificial Magnesium Anode protects and saves the tank from electrochemical reactions during water heating

**Faster
Heating**

Single/Dual Glass-coated Incoloy Heating Elements – made of high quality steel for quicker heating and to prevent scale formation

MORE FEATURES*

**Digital Controls
and Display**

- Cordless Remote
- Full Digital Display
- On/Off Timer
- Clock Temperature Setting

7 Years Warranty*

Sanitaryware

Jaquar sanitaryware provides you with a wide range of designs and features to enhance your bathroom décor perfectly. Our wide range of wash basins, offering Wall Hung, Over Counter, Under Counter and Counter-top installation are well coordinated with Jaquar's exquisite range of faucets. What's more, our water closets with

single piece, coupled and wall mounted options, fit into your coordinated design and installation parameters perfectly. Their user-friendly, as well as two push-button activated dual-flush technology provide you the choice of using 3 ltr or 6 ltr flush options.

Features

Anti-Germ Glazing

Anti-Bacterial Glaze is a powerful Fluoro-Polymer coating of 20 to 100 nanometer thickness. It is applied on Jaquar WCs and Wash Basins through a special process and provides the following benefits:

- It forms a strong hydrophobic shield which prevents the build-up of bacteria and germs
- Ideal for India's humid weather conditions
- Renders the surface durable and highly repellent to dirt, oils and liquids
- Facilitates easy removal of hard water deposits

Clean and Odour-free WCs

The interior portion of the traps of water closets are glazed

- Ensures the trap does not collect dirt or give out odour
- Prevents dirt from sticking inside the trap
- Facilitates easy flushing and waste removal
- Ensures clean and odour-free bathroom

Easy Installation

- Flatness of parts getting fixed to the wall
- No gaps between the wall, floor and the fitting portions of the sanitaryware
- Perfect fitting for a perfect look
- Enlongated rag bolts roles are elliptical in shape, hence it is easy to install

Soft Closing Detachable UF Seat Cover

- Load bearing capacity of over 150 kg (seat cover and bushes)
- Shape and texture of the seats unaffected by temperature variations
- Does not absorb room temperature therefore the seats are neither too hot nor too cold to touch
- Surface is resistant to stains and strong dyes
- Does not deform or peel-off with use
- Special buffer oil is used in the hinges for lasting functionality
- Soft-close action to eliminate noise of falling of the cover. This is guaranteed for 2 years
- Adjustable speed of falling of the cover within a range of 1 to 15 seconds that leads to silent operations

10 Years Warranty

After Sales Service

Large service network for complete peace of mind. Jaquar also offers preventive maintenance services for hassle free bathrooms.

Uniform Standard

Uniform grades of product available for retail and project. No differentiation in terms of product quality, design and colour.

Stringent quality parameters:

- Load Bearing Test 400 kgs for WC & 100 kgs for WB
- Autoclave Test for Craze Resistance
- Chemical Resistance Test to negate the possibility of stains
- Spectro Photometer Test for colour stability
- Flushing Tests: (a) 100 Ball Test (b) Ink Test

Hi-Flow Thermostats

Jaquar's Hi-flow Thermostat is a thermostatic mixer valve that maintains the temperature of the water flowing out of your shower even at low pressure. It reacts and adjusts thereby preventing scalding or freezing by not letting water temperature get too hot or too cold.

What are the Benefits:

- Jaquar's is the first thermostat that works even at low water pressure, making it suitable for Indian conditions
- Temperature remains constant for the complete duration of your shower
- No temperature variation, even if there is a sudden drop in pressure (if someone uses hot water in the kitchen or if someone flushes a toilet)
- In case of a failure of cold water supply, the Thermostat will completely shut off the hot water, preventing scalding from hot water

- Provision of re-starting the shower - no need to adjust the temperature time and again

Features:

- Cartridges made of high performance thermostatic polymer materials that meet the global standards for high and low pressure
- Option of pre-setting the cartridge at a specific temperature (as desired)
- High technology thermoplastic polymer minimises lime-scale build up
- One of the best in terms of temperature regulation and safety in accordance with various standards : NF EN 1111 (marquee NF077), ASSE1016 & NHSD08
- Standard temperature range: 15° C to 60° C (59 – 104 degree F)

Whirlpools

Jaquar proudly presents its own range of whirlpools. Created by specialist designers from Europe and made in Jaquar's state-of-the-art manufacturing facilities.

Jaquar Whirlpools bring wellness into your home with great style and panache. Their jets project water in a flowing, circular motion, which offers a wide array of health benefits, including relaxation, improved blood circulation and sore muscle and joint relief. Whatever you desire, whether hot or cold water massages, long relaxing soaks or even chromotherapy, a Jaquar Whirlpool gives you all these and more. Easy to use manual or remote functions flawlessly switch water modes for your benefit.

Advantages:

- **Hydromassage:** A gentle jet stream massage bath that stimulates from the surface of the skin onwards. The deep tissue massage stimulates blood vessels and nerve

endings. and relaxes your body's entire muscular system.

- **Air Massage:** An infinite number of air bubbles provide a caressing sensation on the skin and allow the water's soothing warmth to penetrate deeper into the body's tissue. This sensational feeling, akin to weightlessness, is accompanied by a deep experience of healing warmth.
- **Chromotherapy:** The use of various coloured lights offers additional therapeutic benefits when used in conjunction with the whirlpools massage. These include:

Green: has harmonious effects on the digestive system.

Yellow: radiates sun-like warmth on the body.

Blue: is calming and soothing and lets you float away in to your dreams.

Red: infuses energy and vitality, giving lost strength to the entire system.

Features

The unbeatable product features are:

- Brilliant surface of sanitary acrylic
- Warm surface
- Antibac® hygienic surface
- Increased chemical resistance
- High break strength
- Long life in use
- Excellent design possibilities
- Easyglide® layer
- Low specific weight
- Recyclable
- Repairable

BATHTUB LAYERS

Special transparent acrylic top layer has a high chemical resistance to : cleaning agents, perfumed foams, household detergents, body care products

Special transparent acrylic top layer prevents surface defects, crazing/cracking, decoloration and color fading

Special polymer for better mechanical resistance to impact and temperature

Polyurethane layer is recyclable and uses ecological material with high insulation that retains the temperature for a longer period than FRP

Features

The PMMA Advantage

The carrier layer consists of an easily thermo-formable and high impact ABS and the top layer is in impact-modified acrylic (PMMA). In order to maintain the colour stability of the finished product after extended external use, the PMMA layer is homogeneously matched in the colour of the carrier layer. Due to the reinforcement with 20mm of plywood at the bottom, the tub doesn't develop cracks at the bottom when filled with hot water.

Air Suction Valve

There is an additional pipeline in the water circuit which is connected to all the water jets. This pipeline is connected to a pump with a heating coil which sucks atmospheric air, heats it and distributes it to each and every water jet to boost the jet pressure.

Safety Vacuum Breaker

This is one of the important safety features installed in Jaquar whirlpools. In case of blockage in the suction point the motor switches off automatically.

No Bacteria Formation. Fresh Water Everytime

The water pipes connect via V-shaped housings, creating a bow which ensures the complete drainage of water. Unpleasant odours and, even worse, bacteria are thus avoided.

Environment Friendly

The pipes are made from special Food Grade PVC. These pipes have an anti bacterial coating on the inner side so that even if some drops of water stay behind after the tub is drained, there won't be any bacteria formation in the water droplets.

3 Tier Test

Each and every Jaquar whirlpool goes through a functional test with hot water after which it is tested on a European test machine for earthing resistance, insulation test and a high voltage test.

Easy To Use

The digital/manual control activates all the hydromassage functions, to regulate Airpool intensity. All electronic parts can be installed and removed on site, thus making after-sales, what it should ideally be - a service !

Water Jets

The effectiveness of the hydromassage is enhanced by the exclusive performance of the Glass patented "JET CLEAN" nozzles. They have orientable nozzles with partial closing system. The water flow can be adjusted in intensity and direction to suit personal needs, in order to gently massage delicate areas with capillary fragility and give a more energetic massage to areas that need more vascular stimulation

Airpool Jet

The airpool jets are made of plastic and provide a gentle and delicate massage on your spine, which increases the sensation of warmth in the body and has beneficial effects on the back.

When immersed in water, the body builds up a protective layer which insulates the body. The air bubbles open the insulation layer releasing oxygen, and stimulating blood circulation. It optimises the transfer of warmth and the feeling of wellbeing.

Spas

Spas are a **wonderful** way to relax and restore equilibrium. Jaquar's Spa models are technological marvels whose 'well being circuits' comprise of various seats and a common footrest in the centre. Each seat is strategically fitted with different types of massage jets in various positions, oriented to massage different parts of the body. By moving from one seat to the other, one can enjoy a complete and satisfying massage that stimulates and relaxes all parts of the body. Cushioned headrests, ergonomic seats and a host of high performance features make this the ultimate home spa experience.

Advantages:

- **More economy:** An array of energy efficient technologies make our spas more economical to run and easier to enjoy more often without worrying about power consumption.
- **Cleaner, healthier water:** Unlike swimming pools, Jaquar

Spas don't use harsh chemicals that can be harmful for the skin. Our spas feature advanced water treatment technologies to ensure the cleanest, clearest water.

- **A superior experience:** Jaquar Spas have superior hydrotherapy performance and features that are usually reserved for the world's most expensive spas.
- **Guaranteed to last longer:** Every Jaquar Spa is hand crafted using industry leading techniques and materials, which is why we can guarantee the spa shell for 10 years.
- **Easier to maintain:** Jaquar Spas give you the ultimate in easy care spa ownership without needing to spend much time on maintenance, or have a degree in chemistry to enjoy crystal clear water.

Features

Technologies that save energy and money

To let you enjoy using them without worrying about the power bill, Jaquar Spas come with a whole range of energy efficient technologies.

Cabinet Insulation

Jaquar Spas have insulation in the perimeter of their cabinets to maintain the warmth of the water, and the spa's plumbing and equipment, further reducing your energy costs.

The insulation system has two features that make it superior to the traditional 'foam on shell' spa insulation system. By insulating the cabinet instead of the shell, Jaquar Spas not only retain heat from the pumps and equipment, but also insulate the plumbing that otherwise would lose heat to the environment. This results in less overall heat loss and lower running costs. What's more, the insulation reduces the noise of the spa pumps so you will also enjoy a quieter, more tranquil spa experience.

Intelligent Thermal Regulation

Allows the spa to tune itself to its environment, day-to-day and season-to-season, thus reducing your heating costs by up to 20%.

Thermal performance and heat retention is what distinguishes one spa from another. Jaquar's control system adapts and tunes itself to the thermal properties of your spa pool, in its environment, day to day and season to season, to reduce 'on demand' heating.

The control system of a Jaquar Spa actually 'learns' how your spa is used. By reducing the temperature drop required before the heater switches on, it provides more consistent spa water temperatures and lowers daily operating costs.

Smart meter ready

Even if your electricity provider does not currently offer smart meters, they soon will. A smart meter allows your electricity supplier to charge higher prices in periods of high demand, but rewards consumers who shift their consumption to low demand periods such as overnight. Using Power Save software, Jaquar Spas can be designed to do the filtering and heating when power costs are at their lowest. Best of all, the control is in your hands. You can tailor the operation of your Jaquar Spa to take advantage of smart meter technology and reduce your running costs.

Purezone Micro Filtration

The top priority of an effective water treatment system is to remove waterborne contaminants. Conventional filters only trap particles up to 50 microns in size.

A luxurious spa experience

Jaquar Spas have superior hydrotherapy performance and features that are seen in the world's most expensive spas.

Hydroflow jets

A Jaquar Spa's hydroflow jets are designed to maximise jet pressure and provide a world-class hydrotherapy experience. We choose from a multitude of directional, spinning and fixed jets to create a different massage action in each seat. Some seats give a broad massage using wide sweep rotational jets, whilst others provide a pinpoint, Shiatsu-style massage.

Features

Ergonomic design

Jaquar Spas are designed to maximise your comfort. Jets are positioned to massage tired muscles. The controls are within easy reach. And relaxation comes automatically.

Easy to operate

Jaquar Spa control systems are intuitive and easy to operate and offer maximum flexibility and control. The top side panel controls most functions with one touch of a button. More advanced controls can be accessed through the simple English menu functions.

Two lounge seats

To avoid arguments over who gets the spa's lounge (usually the most comfortable and most coveted seat in the spa), most Jaquar Spas have two luxurious hydrotherapy loungers.

Individual pressure control

To ensure complete satisfaction for all, each seat in your Jaquar Spa can be controlled with the seat's pressure control dial. In addition, most jets can be individually controlled, directing pressure to where you need it most.

Dynamic lighting options

Flood lighting, jet lights, backlit drink holders and water features, waterline illumination and access lighting can all be added to your Jaquar Spa to enhance your experience. Lighting programs can be controlled using the spa's topside controller.

Neck therapy collar

Optional on most Jaquar models, the neck therapy collar incorporates jets specially designed to eliminate stress and tension carried in the neck and shoulder area. Opt for the neck therapy collar to soothe away the stresses of your day.

Saunas

A Sauna is a bathhouse or room, usually made of wood, which uses dry heat to induce perspiration, with steam being produced by pouring water on heated stones. Perspiration or sweating is one of the main ways our bodies get rid of the traces of hundreds of toxins that accumulate inside us from pesticides, drugs and manmade chemicals. 15 minutes in a Jaquar sauna can help us sweat as much as we might otherwise do over an entire day or more. And the benefits of this are many – ranging from relieving common cold symptoms to aiding in medical conditions like chronic fatigue, rheumatoid arthritis, musculoskeletal pain, and even cardiovascular and skin conditions. Sauna sessions can also improve performance in endurance sport and help recuperation after childbirth.

Advantages:

Detoxification

Saunas stimulate the body to release fat-soluble toxins, heavy metals, and other toxic chemicals in sweat via pores more effectively than any other form of heat therapy or exercise. Reports have been made that it can relieve the symptoms of drug-induced lupus. The list of chemicals claimed to be removed from the body includes: mercury, lead, copper, cadmium, manganese, sodium, chloride, arsenic, nickel, benzenes, street drugs, prescription drugs, anaesthetics, cholesterol, urea, nicotine, sulfuric acid.

Immune System Enhancement

A typical sauna session will cause a brief 1 to 3 degree F increase in body temperature. Fever is the body's defence against bacteria, microbes and consequent infection. The production of white blood cells by the bone marrow and killer T cells by the thymus results in boosting immunity, overall.

Stress

Continuous strain on the autonomic nervous system leads to a high level of stress, one of the elusive causes of many chronic diseases.

Weight Control

A 15 minute sauna session is as effective for weight loss as rowing or jogging for 30 minutes. The improved blood flow to organs and endocrine glands speeds up their metabolic process, increasing caloric burn. Because fat becomes water soluble at 110 degrees F, subcutaneous fat can be released along with the sweat and toxins.

Cardiovascular Conditioning

The human body will naturally try and cool itself as temperature increases. It does this by diverting blood from the internal organs to the extremities and skin by vasodilation. This increases heart rate, cardiac output and metabolic rate.

Cellulite

Cellulite is a gel-like substance made up of fat, water and wastes, which are trapped in pockets below the skin. Profuse sweating is purported to clear this form of unwanted debris. A Sauna is effective in cellulite removal when used in conjunction within a program that includes diet and massage.

Pain Relief and Control

Saunas help to eliminate or reduce the pain of arthritis, muscle spasms, shoulder pain, neck and back pain, sprains of any area, and reduce scar tissue and adhesions. Will rapidly increase the healing process in any non-acute injury.

Skin Cleaning and Rejuvenation

Saunas open clogged pores allowing for removal of dirt, oil, and makeup. In addition, there are improvements in skin problems such as acne, rashes, burns, eczema and psoriasis. Scars, even keloids, may be gradually softened.

Saunas

Serene 175X120X210 (4 Person)

Specifications:

Size: 175 x 120 x 210 cm

- Wood Finish-Hemlock
- Stove heater 4.5 KW
- Tempered glass 8 MM
- On heater control panel
- White light with cover
- Chromo light
- Radio
- USB connector
- MP3 player connector
- Lumbar support backrest.
- Thermometer and hygrometer.

Kaya 150X110X210 (2 Person)

Specifications:

Size: 150 x 110 x 210 cm

- Wood Finish - Hemlock
- Stove heater 4.5 KW
- Tempered glass 8 MM
- On Heater control Panel
- White light with cover
- Chromo light
- Radio
- USB connector
- MP3 player connector
- Lumbar support backrest
- Thermometer and hygrometer

Steam Cabins

For those seeking wellness in the comfort of their homes, a Jaquar Steam Cabin is a great way to enjoy the benefits of humidifying water vapour from a high-quality steam generator.

Advantages:

- **Clearer skin:** Steam showers have the ability to unclog pores and remove deeply trapped congestion from under the surface of the skin
- **Infection treatment:** A major benefit of regular steam showers is relief from respiratory infections
- **Increased circulation:** Steam showers are an excellent way to naturally boost circulation throughout the body. Increased circulation brings more oxygen to cells and decreases the risk of hypertension, hardened arteries and muscle function
- **Stress relief:** One of the most powerful benefits of steam showers is their ability to reduce both physical and mental stress
- **Metabolism and weight loss:** Hot steam increases blood flow by stimulating the lymphatic system which, in turn, helps to speed up the metabolism

Features

Absolute Quality of Materials

Jaquar Hydromassage showers are made of co-extruded acrylic, which does not discolour and has a long life. This hygienic material, together with the smooth surfaces and tempered glass shower enclosures, makes cleaning an easy part of the product experience.

Stability and Mechanical Resistance

Jaquar shower boxes are characterised by stability and solidity thanks to the zinc-plated steel frame that ensures maximum rigidity of all the components. Stability and mechanical resistance are also the attributes of the shower tray reinforcement.

Easy Installation

The installation of the shower boxes is as easy as it can be: the metal frame carries the elements and is simply put together.

Safety

The range of hydromassage showers meets all the relevant safety standards which are currently in effect. Extra safety that goes beyond any norms is part of the product values that any demanding customer can expect from a leading product. For example, the shower tray surface is ribbed, providing for an excellent anti-slip feature. The steam generator will turn itself off automatically after the preset timeout, avoiding wasting energy and the risk of overdoing a steam bath.

Digital Control

It allows you to manage all manual control functions including sequential back rain jets, back jets, waterfall cervical massage, duration of vertical hydromassage, steam bath function, light, radio and white LED lighting

Control Units

All the hydromassage shower functions can be simply adjusted through easy-to-use control units.

Manual Control

It allows you to manage showerhead and vertical jets as well as activate the steam-bath function.

Steam Cabins

Skin 100X100X210

Steam Cabins

Noor Steam Module

Specifications:

NSC-CHR-MU000BW000X

- Material - stainless steel
- Finish - brilliant
- Installation - wall mounted & built in position as desired in the shower area

Features:

- Steam function - 2.7 K.W. generator with on/off touch
- Aroma dispenser with extractable drawer
- Max Temperature of 45 Degree C
- IPX4 Rating
- Self Flushing enabling no calcium deposits - Auto clean
- Safety cutoff

Specifications:

NSC-CHR-MLTPNL6KT

- Material - stainless steel
- Finish - brilliant
- Installation - wall mounted & built in position as desired in the shower area

Features:

- Steam function - 6 K.W. generator with on/off touch
- Aroma dispenser with extractable drawer
- Max Temperature of 45 Degree C
- IPX4 Rating
- Self Flushing enabling no calcium deposits - Auto clean
- Safety cutoff

Noor Steam Panel

Specifications:

NSC-CHR-C015000000X

- Stainless steel column
- Built-in or wall-mounted and positionable as desired in the shower area
- With 3 adjustable vertical (square) with anti-limescale nozzles
- Thermostatic mixer and diverter with handshower
- Chromotherapy
- Steam function with manual control and aroma dispenser with extractable drawer
- 2.7 kw. steam generator

Steam Cabins

Archimede 100X100X210

Specifications:

Size: 100 x 100 x 210

- Versions - Shower, steam

Features:

- Self standing box (Corner/Wall)
- Shower tray and roof with Integrated Showerhead 300 MM
- White painted aluminum shower column with 2 Integrated round jets
- Shower rail
- Thermostatic mixer with diverter
- Hand shower and shelf
- Chromo Lights
- Speakers
- Sliding door shower enclosure
- 5 mm tempered glass.
- Steam Function - 2.7 KW with Aroma Dispenser

Shower Panels

Jaquar's Shower Panels make showering much more convenient, since they are almost like shower stalls which fit even in a small bathroom. Jaquar shower panels are an easy way to increase the functionality of your existing shower area, as they can fit neatly on to the wall via their wall bars.

Advantages:

- **Maximisation of bathroom space:** Since they are designed to be mounted on the wall, not much floor space is required to accommodate the unit.
- **Versatility:** Instead of using a single shower head, many shower panels are available with multiple water outputs.
- **Economical:** Jaquar panels are available in a wide range of prices, styles, colours, sizes and designs to suit different needs.

Features

- 1 Thermostatic diverter which ensures anti scalding during showering
- 2 Jaquar shower panels are made of steel or a PMMA body finish
- 3 Contains 3 adjustable vertical jets for massaging the neck, waist and thighs
- 4 Jaquar shower panels are pre-fitted with overhead and hand showers and are easy to install

Shower Panels

Blak

Specifications:

Code: JPL-BLK-JA011

Stainless steel structure, 3 adjustable vertical jets (Square), Integrated shower head (8" Square), Thermostatic mixer with diverter, Hand shower with flexible hose, Button Spout, Connecting Hose.

Curve

Specifications:

Code: JPL-SLM-JA021

Anodized Aluminium structure, 3 adjustable vertical jets (Round), Integrated shower head (8" Round), Thermostatic mixer with diverter, Hand shower with flexible hose, Button Spout Connecting Hose.

Flair

glass®

Specifications:

Code: GFL-CHR-GR000B1H00X

Stainless steel structure, Integrated rectangular shower head, 3 adjustable vertical jets (Square), Thermostatic mixer and diverter, Hand shower with flexible hose.

Look

glass®

Specifications:

Code: GLK-CHR-GS000B1H00X

Stainless steel structure, Round overhead shower with 220 mm dia, Three vertical jets (Round), Thermostatic mixer and diverter, Hand shower with flexible hose.

Code: GLK-CHR-GS000B1H10X

Stainless steel structure, Round overhead shower with 220 mm dia, Three vertical jets (Round), Thermostatic mixer and diverter, Hand shower with flexible hose. Provision for Spout

Shower Enclosures

Jaquar's Ready-to-Fit Shower Enclosures are a must for every bathroom to minimise the dangers of slipping and falling.

- Readily available in standard sizes
- Separates dry and wet areas and optimises bath spaces
- Easy Clean (Anti Limescale Treatment)
- Brass Hardware
- Made of toughened safety glass and high-quality hinges
- Choose from Frameless, Semi-framed and Framed enclosures
- One-stop solution (Design – Installation – Maintenance)
- Available at leading sanitaryware stores
- 5 Years Warranty on Hardware

Features

Glass :

Tempered glass : option of 6mm, 8mm and 10mm

Advantages of tempering/toughening glass:

1. 4-5 times stronger than normal float glass
2. Breaks into small pieces/dices minimising risk of injury
3. Can resist thermal stress as edge strength is higher

Tempering done at Jaquar's own fully automatic state of the art tempering unit

- Tempering for shower enclosure glasses only
- 90% of an enclosure is glass, so glass must conform to the highest safety standards as it is used in the bathroom
- Quality checks :
 - Fragmentation test : to check breakage pattern of glass
 - Zebra test: no waviness
 - Ball drop test (impact resistance): to check strength at point of impact
 - Visual defects: to check bubbles, scratches, chipping at edges and other visible defects
 - Free fall test: to check overall strength of glass, by throwing the glass freely on a plain surface

Standards :

- These standards ensure that the glass passes stringent quality parameters
- Ensures consistency
- Enhances life of the product

Conforms to both European and Indian standards

Reference : India

- IS 2553 (part 1 : 1990)
- IS 14900 : 2000
- IS 2835 : 1987

Reference : Europe

- En 14450 : 2000
- Adheres to European toughening norms

Hardware :

Frameless Range

- Hinges
 - Minimalist and sleek design to make entire enclosure look aesthetically appealing
 - Made of brass with nickel and chrome plating
 - Automatic closing upto 30°
 - Tested for 5 lakh cycles
 - Rust proof screws
 - Screw caps
 - Protective film on the hardware to prevent scratches etc
 - Designed to carry loads of upto 25 kg (per hinge)
 - Gasket :
 - Food grade plastic

- **Glass Connectors :**
 - Minimalist and sleek design to match the hinges
 - Made of brass with nickel and chrome plating
- **Stabilisers :**
 - SS 304 grade
 - Mirror finish to match chrome finish of the hinges and connectors
 - 19 mm dia
- **Towel Bars :**
 - Longest towel rod (405 mm x 205 mm) to hang 2 towels
 - Brass with nickel and chrome finish
 - 19 mm dia
 - No visible screws

Plastic Parts :

Semi-Framed and Frameless Range :

- Made of food grade plastic
- Finish
 - Sleek to match with hardware
 - Transparent look complementing glass
 - Enhances aesthetic appeal of enclosure
- Concealed magnet ensuring longer life
- 5-year warranty for complete peace of mind
- Replacement even if it turns yellowish
- **Profiles instead of wall connectors**
 - Aluminium profiles with powder coating
 - Aluminium is first cut to size , then chemically treated and then powder coated so that there is no chance of rusting
 - Adjustment of 15 mm so as to cover undulations in the wall
- **Hinges**
 - Rise and fall mechanism : door rises 6 – 8 mm above the floor while opening thus preventing any chance of breakage

Sliding Range :

- Top hung channel – gives free walk way
- Wall profiles : sleek with 15 mm adjustment
- Rollers : ball bearing encapsulated in brass
- 5-year warranty on rollers

Flushing Systems

In order to bring you the latest and the most advanced bath products, Jaquar, a complete bathing solutions provider presents a design revolution—the superbly designed high quality flush plates manufactured by SIAMP and marketed by Jaquar.

Besides modern designs that offer a sleek look to bath spaces and outstanding features like water-saving, easy access maintenance and anti-condensation, Jaquar Concealed Cisterns ensure that your bathrooms look spacious, clean and hygienic at all times.

Features:

Saves Water: Impressive Dual Flush with a provision of 3/6 ltr flush (Can be adjusted to 2/4 ltrs)

Less Noise: Technically advanced, silent flush valve and fast-filling hydraulic float valve minimises the flushing sound during usage

Perfect Pan Cleaning: Heavy and even water discharge during every flush at every water pressure

No Damage from Condensation: Has anti-condensation lining wrapping the tank and supply bend to protect damage from masonry condensation

Easy to install and maintain

Jaquar's floor standing frames with concealed cisterns not only provide the benefits of easy, quick and perfect installation but also allow you to choose contemporary wall mounted sanitaryware of your choice for the bathroom.

Features:

Easy Installation

Easy and hassle free installation as no chiselling of wall is required

Load Bearing Capacity

Wall hung WC can be bolted simply and securely to the frame, which can take a load of up to 400 kg.

Wide Compatibility of WC

Accommodates different types of wall hung WCs as holes are provided at different heights

Perfect Easy Alignment

Fixed inlet and outlet distance (135 mm from centre to centre) means perfect installation of WC, and pre-defined space for cistern results in perfect flushing every time

Adjustable Height

Adjustable legs (0-200 mm) to allow for variation in heights of WC, as required
