Jaquar Shower Advantage

The modern bathroom can be defined as an individual's personal sanctuary to wash away the stress of one's day to day life. It offers you lasting pleasure, therefore being an investment that will last. A harmonious fusion of personal style, grace and tranquility.

Understanding the changing needs of its customers, Jaquar unravels its impeccable range of shower systems. Choose from a range of aesthetically designed showers with varying styles, features and price range, that suit your personality and taste.

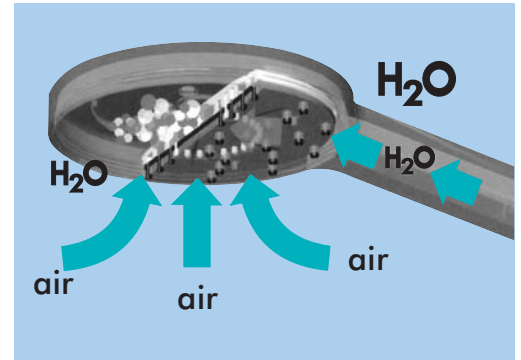

A caressing and stimulating shower experience is a must today to unwind, replenish and recharge your body.

Jaquar Shower Features

Unique Air Technology

Jaquar's winning formula of quality and innovation creates optimal water distribution for an unparalleled showering experience. This water-saving and eco-friendly feature revamps traditional shower systems by utilizing air. Air is mixed in the water through a built-in air mixer which is a part of the shower. This leads to lighter voluminous drops which reduce water consumption by 30% thereby leading to even distribution of water on the body surface and more showering delight.

Advanced Rubit Technology

An optimal solution that keeps showers clean and increases their longevity. Since the spray jets on the showers are made from elastic silicon, they ensure that no lime scale deposits stick to the shower face. Even if they do, they can be easily rubbed off by hand or flannel.

Diverse Flow Options

Diversity is the rule which means you get various combo options - from **normal spray** that gives a full-bodied effect for a refreshing bath, **massage spray** that stimulates the skin vigorously, to **cascade spray** that envelops your body in a soft caress.

Normal

Soft

Massage

Cascade

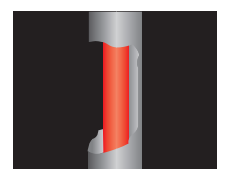

Click Position System

All Jacquar multi-function showers feature the convenient click mechanism. You can feel and hear the click while changing the function of the shower sprays.

Thermo Insulation

Jaquar Insulated shower systems prevent scalding and doesn't heat up the shower body.

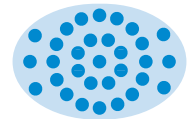

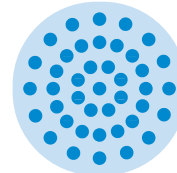

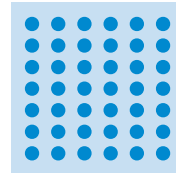

Jaquar Booster Technology

Jaquar Booster Technology creates the sensation of a full shower regardless of the water pressure.

Varied Shapes

Jaquar shower collection is wide-scope in terms of shapes - from square to circular to oval, so that you get a wide spectrum of customized style and aesthetics.

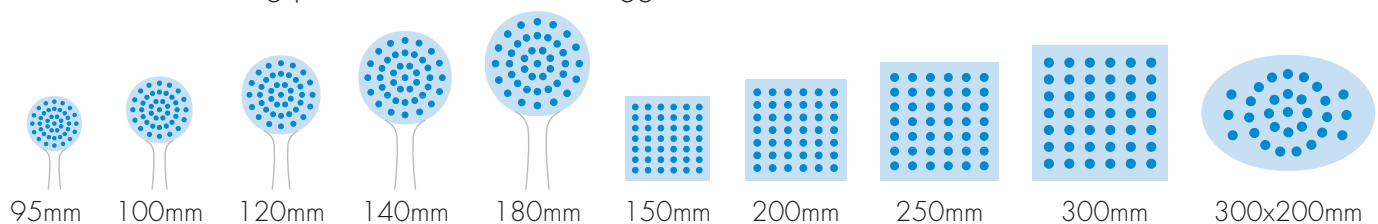

Mirror Finish

Diamond insert cutters are used during the machining process so as to provide a mirror effect finish on all our products.

Various Size Diameters

From square to circular to oval, Jaquar's shower systems come in a range of diameters so that you get increased showering pleasure. After all, the bigger, the better.

Extensive 10-Year Warranty and Prompt After-Sales Service

Which means reliable and assured customer benefits round the year from Jaquar.

Green Pulse

In a dedicated move to endorsing the green building norms, Jaquar products successfully champion the value of water. All our showers conform to Green Building norms through technology-controlled water flow discharge rates that vary from 6 litres, 8 litres to 12 litres. Our highly efficient showers not only reward you with a good ecologically-conscious but also with a delightful showering experience.

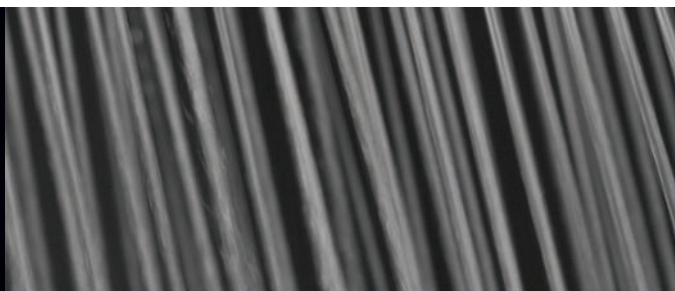

Air Showers (Hand and Overhead Showers)

At Jaquar, India's premier complete bathroom solutions provider, we strongly believe that quality is always the result of sincere effort coupled with intelligent direction and skillful execution.

Our thoughtfully designed Air Showers let you save water and energy without compromising on comfort.

Air Showers (Overhead Showers)

Cat. No. OHS-1757

Overhead Shower ø140mm Round Shape Single Flow with Air Effect
(ABS Body & Face Plate Chrome Plated) with Rubit Cleaning System
