Bring some JAQUAR-SIAMP innovation into your bathroom.

JAQUAR-SIAMP  
Slim Concealed Cisterns.

*A Partnership of Excellence*

## Contemporary solutions for modern bathrooms

**The comfort zone:** Over the years, bathrooms across the world have transformed from functional bathing areas to luxurious spa getaways where you can spend a few hours in utmost harmony with yourself.

Today, more than just bathing, the bathroom is where one retreats to get away from the stresses of daily life. It is no wonder then that bathrooms are emerging as the single most important areas, in any home. Great care goes into their planning and interiors and considering the fabulous new developments and innovations in luxury bathrooms, designing the ideal bathroom to the point of perfection is an easy and exciting task.

**A beautiful blend of luxury and high technology:** New technologies have made a grand entry into bathrooms. The 'smart bathroom' has finally arrived. More and more bathrooms are incorporating products with advanced features into their bathrooms. Comfort and hygiene blend seamlessly into these products, taking your bathing experience to a new high.

**Slim Concealed Cisterns-perfect for the modern bathroom:** Jaquar in continuation of its efforts to bring-in the most advanced technology/ products to the Indian market has collaborated with SIAMP, a Monaco based company to manufacture and market these products in India. SIAMP is one of the leaders in design, realization and production of WC sanitary ware equipment and is OEM suppliers to major ceramics manufacturers worldwide.

The Slim Concealed Cistern from Jaquar-SIAMP is ideal for the contemporary bathrooms. It gives a sleek new look to the bathroom, and ensures that it remains clean and hygienic at all times. A result of Jaquar-SIAMP's high technology innovations, this concealed cistern is extremely practical, easy to install and more importantly, saves a good deal of that most precious resource, water.

## JAQUAR-SIAMP – A Partnership of Excellence

Jaquar, a world renowned name in quality bath & Shower systems sums up its philosophy thus. Since inception, Jaquar has endeavoured successfully to live up to this philosophy through excellence in every one of its superbly designed products.

Now, Jaquar has entered into a technical tie-up with SIAMP to market concealed cisterns in India.

Founded in 1947, SIAMP knew from the beginning, how to innovate in the sanitary market. From the early days it was obvious to the company that water was soon to become a precious resource that mankind could simply not take for granted. Thus, SIAMP concentrated on developing technological solutions which respected this vital resource.

Now a major player in the sanitary equipment market, the SIAMP group is continually striving to improve the viability, the efficiency and the design of its products, which include toilet seats, cisterns, mechanisms, inlet valves, WC connectors, mounting frames, cladding solutions, maintenance systems and odour extractors. SIAMP designs, manufactures and distributes its truly large range of products and systems for toilet equipment.

As a worldwide partner of major ceramics manufacturers and with hundreds of distributors, SIAMP is constantly in touch with this ever evolving market. SIAMP is ever in the process of detecting the new requirements of modern consumers and sustainable development issues. As a result, it is the source of innovations, recognized by a large number of international patents.

# slim CONCEALED CISTERN

## JAQUAR-SIAMP's amazing and elegant concealed cistern

### Gives your bathroom a spacious look.

No protruding water tanks! **Slim Concealed Cistern** is designed for concealed masonry installation. Its thinness allows to place it in low thickness walls. This keeps the bathroom wall and floor clean and it does not look cramped. Give your bathroom a spacious and modern look.

Tank recessing allows the creation of a shelf. Toilet will become more modern.

### Enhances the cleanliness & hygiene of your bathroom

Since the Slim Concealed Cistern is installed inside a wall, it hides the entire flushing system. As a result, there are no hidden corners which can collect dust, dirt and germs. Thus, this system simplifies cleaning and results in enhanced hygienic conditions.

### Sleek, stylish flush control plates

These elegantly designed dual flush control plates are designed to take your bathroom design to the next level. They are available in four models, Smarty, Riviera, Lemon & Moon.

### The amazing water saving dual flush system

A feature which is bound to become almost indispensable in any household is Jaquar-SIAMP's truly impressive dual flush system. Two neat buttons on single plate indicates the two levels of flushing water available to you. Press the larger button and you get a full six litres of water. Press the small button and you get three litres, enabling you to save the precious water by half. This not only saves the water in your storage tank, but also proves to be economical in the long run.

Slim 80 is a SIAMP compact conception mechanism specially designed for flushing 3/6 liters.

### Makes less noise

The problem with most flush valves is that they make too much of noise while in use. This problem becomes a serious one in hotels and apartments where the rooms are attached. If a flush is used in one apartment it can be heard in other apartment too. To avoid this, SIAMP has developed a technically advanced silent flush valve and fast filling hydraulic float valve due to which the flushing sound is minimised during usage.

Handy 95 L is a noiseless SIAMP original equipment supplied to world's main ceramic manufactures.

Water flow is 2.1 ltrs. by seconds for perfect pan rinsing. Large flush volume can be increased to 2.5 ltrs.

### Perfect pan cleaning & suitable to work under variable water pressure conditions:

Slim Concealed Cistern, due to its heavy water discharge, cleans the pan perfectly. Also, there is no leakage problem even on higher water pressure which is generally seen in high rise buildings.

### No damage from condensation

Slim Concealed Cistern has an anti-condensation lining wrapping tank and supply band which ensures that no damage is done on the masonry because of condensation.

O-ring and lips seals together with tubes diameter accuracy guarantee no water leakage will happen when flushing.

### Easy installation

These Slim Concealed Cisterns are easy to install and reduce installation time due to tank outer connection to water supply network.

Tank outer connection to water supply network

Easy access maintenance concept allows fast and efficient maintenance as all tank components can easily be withdrawn through command plate windows

### Easy to open up and easy to maintain

What comes as a pleasant surprise to most is the fact that Slim Concealed Cistern is extremely easy to access and maintain, at all times. It is blow moulded in one piece to eliminate the risk of leakage, but it does

require cleaning or a change of the joints and membrane of the cistern equipment, from time to time, depending on the hardness of the network water. In that case, all you do is remove the control plates and you have complete access to the entire concealed cistern. In fact, the fitting valve as well as the flush valve may be removed and replaced with the greatest of ease, even without the use of tools.

One piece tank is made from PEHD offering specific characteristic of strength and flexibility.

### Smarty

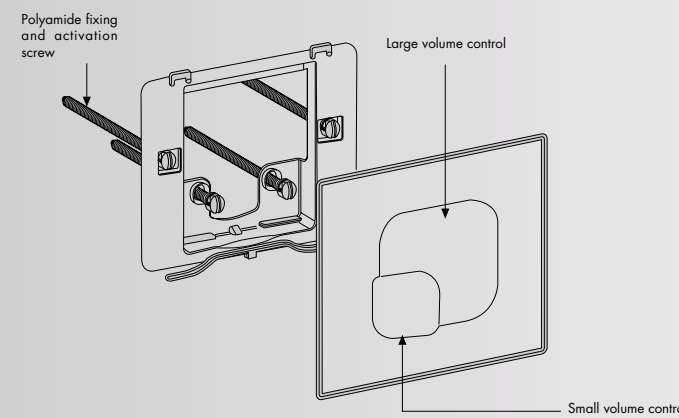

**Smarty** is an elegantly designed dual flush control plate made of ABS and is available in Chrome and White finish. It will add class to your bathroom décor.

### Lemon

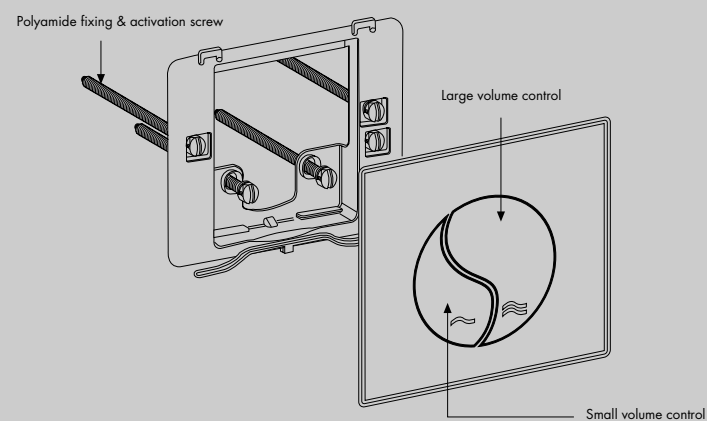

Cute and perky, **Lemon** is an attractive dual flush control plate made of ABS. It comes to you in an attractive chrome finish and is sure to add zing to your bathroom interiors.

### Riviera

**Riviera** is dual flush control plate made of ABS and comes in Chrome finish to match your bathroom décor.

### Moon

Bringing the beauty of the full moon into your bathroom is **Moon**, a beautifully designed dual flush control plate made of ABS. It is available in a striking chrome finish.
